Why Sigo Water?

Sigo Water offers a complete solution for managing your water delivery business with ease. Our software enables real-time tracking of delivery vans, effortless order management, and accurate handling of both cash and credit sales. With comprehensive inventory control, you can manage stock efficiently, including new, defective, and returned items. Automated scheduling streamlines deliveries, while undelivered order tracking helps maintain customer satisfaction. Our platform also supports multiple agencies, providing centralized control and reporting. Choose Sigo Water App to simplify operations, boost efficiency, and enhance customer experience.

⬤ Real-Time Delivery Van Tracking

Stay updated with live tracking of your water delivery vans. Monitor their exact location, optimize delivery schedules, and ensure timely service, all from the convenience of your dashboard. Reliable, transparent, and efficient delivery management at your fingertips.

⬤ Cash & Credit Sales Made Simple

Seamlessly manage both cash and credit sales through our software. Track transactions effortlessly, streamline payment processing, and keep your financial records accurate and up-to-date, ensuring a smoother and more flexible sales experience for your water delivery business.

⬤ Comprehensive Inventory Management

Easily manage your inventory with features to track cans, add new stock, and record defects like smelly or damaged cans. Our software ensures accurate inventory control, helping you maintain quality, reduce losses, and streamline stock management efficiently.

⬤ Bottle Tracking

Our software provides real-time bottle tracking, enabling you to pinpoint inventory locations and minimize theft and misplacement. Secure your assets, streamline operations, and reduce costs. Gain peace of mind with precise inventory control.

⬤ Customer Retention

Our water delivery and management software improves customer retention by offering real-time tracking, efficient delivery, coupon purchases, personalized service, and strong support. Also, the software enables targeted marketing through offers, in-app advertisements, and custom notifications.

⬤ Advanced Reports

Detailed reports provide businesses with critical insights, including sales performance, profit & loss analysis and expense tracking etc. These reports help you make data-driven decisions, optimize operations, improve customer retention, reduce costs, and boost profitability, ensuring your business runs smoothly and efficiently.

Monitor Van In & Out Movements

Supervisors can easily track van entry and exit times, ensuring efficient fleet management. Gain insights into vehicle activity, enhance operational control, and maintain smooth delivery operations with real-time data at your disposal.

Effortless Expense Management

Vansale staff can easily record expenses directly from the app, simplifying financial tracking on the go. Streamline reporting, reduce paperwork, and ensure accurate expense management with just a few taps, enhancing overall operational efficiency.

Track Undelivered Orders

Easily monitor undelivered orders through our software. Keep track of pending deliveries, address issues promptly, and ensure all orders are fulfilled. Enhance your delivery process with efficient management of undelivered orders.

Smart Delivery Scheduling

Easily schedule water deliveries through our software. Streamline your operations and ensure timely service by organizing delivery tasks in advance. Simplify logistics management and improve efficiency with convenient, automated delivery scheduling.

Real-Time Coupon Tracking

Effortlessly manage bulk water purchases with our coupon system. Customers track coupon usage in-app, while van sales teams access real-time updates on remaining balances. Enhance customer satisfaction and streamline delivery operations with precise, automated coupon management for efficient service.

## Efficient Agency Management

Manage multiple agencies seamlessly through our software. Handle orders, track performance, and oversee operations with ease, all in one place. Streamline communication, improve coordination, and boost overall efficiency in managing your water delivery agencies.

Multiple Branch Management

Effortlessly manage multiple branches, enabling streamlined operations across all locations. Centralize your business activities, track performance, and ensure consistency while handling the complexities of running various branches with ease.

Payment Reconciliation

Match payments from delivery agents with corresponding orders and invoices. Carefully identify and investigate any discrepancies. Correct errors promptly to ensure accurate financial records.
